

Job Application Email

| **Subject:** [Application] Backend Java Developer – Huong Giang Luong

Dear Hiring Team,

My name is Huong Giang Luong, and I am a Backend Java Developer with over 4 years of experience in web application development. I am writing to express my strong interest in the Backend Java Developer position at your company, which I understand is a leader in the Korean financial IT service market.

With my technical background in Spring Boot, RESTful APIs, and relational databases like PostgreSQL and MySQL, I am confident that I can contribute effectively to your team. I am particularly drawn to your R&D and AI Agent development projects.

Please find my CV and Cover Letter attached for your review. I look forward to the possibility of discussing how my skills can benefit your organization.

Best regards,

Huong Giang Luong
